**ESF Abacus International Kindergarten's** programme is for children aged 2 years 9 months to 5 years of age. Children attend for three hours per day, five days per week. Classes are structured into K1 and K2 groups.

Abacus is authorised to deliver the IB Primary Years Programme, providing an inquiry-based and highly interactive programme. Children learn through play experiences and are encouraged to discover, experiment and reflect on their learning. Our aim at Abacus is to encourage children to become confident and independent learners. We teach children to respect themselves, others and the world around them and to work hard to reach their full academic potential.

Abacus offers two streams in both K1 and K2: English and Bilingual.

**ESF Tsing Yi International Kindergarten** was authorised in July 2013 as an IB World School, delivering the Primary Years Programme. Through their inquiry into four of the six PYP transdisciplinary themes each year, the children in both K1 and K2 develop knowledge and understanding, as well as skills and attitudes that they can use in kindergarten and take with them into their future learning.

At Tsing Yi, play is the primary mode of learning and the learning environment is set up to promote inquiry through a broad range of play opportunities that promote creativity, critical thinking and communication. The students develop a sense of self, and further develop the skills necessary to nurture positive friendships with other children. They become more aware of their place in the wider world.

Our custom designed school for three to five year olds in Tung Chung opened in 2016. **ESF Tung Chung International Kindergarten** is structured into morning and afternoon three-hour sessions for both K1 and K2. The space is functional, adaptable and well-resourced to meet the dynamic needs of the three to five year olds who inhabit it. The spaces are not only carefully and intentionally planned, but are also places of beauty that support learning, stimulate imaginations, nurture children, families and staff – and truly inspire the wonderful memories of childhood. Both indoor and outdoor spaces, materials, technology and equipment intrigue, invite and stimulate students to move, dance, roleplay, create art, develop language skills and investigate scientific principles.

The school reflects our aspiration for each of our children to flourish. Our goal is to nourish each child, individually, and meet their changing social and emotional needs every day. We strive to provide children with strong foundational skills for future academic success and also to equip them to participate as flexible, creative thinkers and engaged citizens in an increasingly complex and interdependent world.
